

Artist's rendering of completed Mount Nittany Medical Center expansion – including increased parking, updated entrance, and expanded emergency department.

Preparing for Your Visit to Mount Nittany Medical Center

SPECIAL NOTICE

Starting February 9, all out-patients will check in at the main entrance. Emergency patients will enter through Entrance B. All Respiratory and Neuro patients will continue to enter through Entrance C. All Cancer Center, Radiation Oncology and PET Scan patients will continue to enter through Entrance E.

If you've been near the Medical Center recently you may have noticed a lot of construction activity on our campus.

When you visit the Medical Center please pay special attention to the directional and informational signs we've posted to help minimize the challenges of navigating through this construction. As construction progresses, these signs will change to reflect new traffic patterns and building entrances.

We want to apologize for any inconvenience you or your family may experience during this time, and assure you that we are doing our very best to provide signage and information to help as much as we can. So while our much-needed improvements are underway, we ask that you use caution and give yourself plenty of time to find a parking space when accessing our services at the Medical Center.

When we've made it through this construction, you will have more parking, located close to the main entrance; a bigger, more efficient emergency department; and comprehensive cancer services in a convenient, state-of-the-art, patient-focused center.

For the most up-to-date information on all of these changes, including maps of parking and traffic areas, visit our website: www.mounnittany.org.

If you believe you may need extra assistance when coming to the Medical Center, please call 814.231.7000 to make arrangements prior to your appointment.
