CENTRE COUNTY NURSING HOMES

Below is a list of nursing homes in Centre County, PA. Patients and families have the right to choose a facility that best meets their needs. Your assigned Mount Nittany Medical Center Care Manager cannot recommend a specific facility but is available to assist you in the process of identifying a facility that will best meet the needs of the patient and family.

It is recommended that all potential facilities be visited prior to making a final decision. Nursing homes will be happy to answer your questions and will take you on a tour of the facility. Some facilities may not accept all insurances. The admissions coordinator at the facility will advise you of any limitations that may apply. It will be necessary for the patient, family, or a responsible party to complete admission paperwork either before or soon after admission to the facility.

Once a facility has been identified it will be necessary to notify your assigned Mount Nittany Medical Center Care Manager of your decision. The Care Manager will then make a referral to the facility and coordinate the transfer from the hospital. The attending physician will make the final decision as to when the patient is ready to be transferred. The Care Manager will discuss options for transportation so you can decide how you want the patient to be transported. There may be a cost for transportation to the facility.

Please contact your assigned Care Manager with any questions that you may have.
